About Orijin

Founded in 2014 as American Prison Data Systems, which we shortened to APDS in 2018, we're now revitalizing our dedication to changing corrections for good with our new name, Orijin™.

We are the ORIGINAL Ed Tech company that provides managed learning platforms connected to our robust cloud-based learning and communications platform to solve some of the most consequential challenges correctional facilities face across the U.S. We help you produce a return on investment that really matters:

- **Expand Equitable Access**
- **Maximize Staff Impact and Efficiency**
- **Reduce Costs**
- **Improve Facility Culture**
- **Deliver Individualized Career Pathways**
- **Attain Sustainable Post-Release Employment**
- **Reduce Recidivism**

Orijin helps you transform your correctional facility into an outcome-focused educational facility and empowers the justice-impacted to rewrite their life stories.

Leading education technology in corrections since 2014—a public benefit corporation and certified B-Corporation, Orijin does not charge justice-impacted learners—or their friends and families—for our educational and communication services.

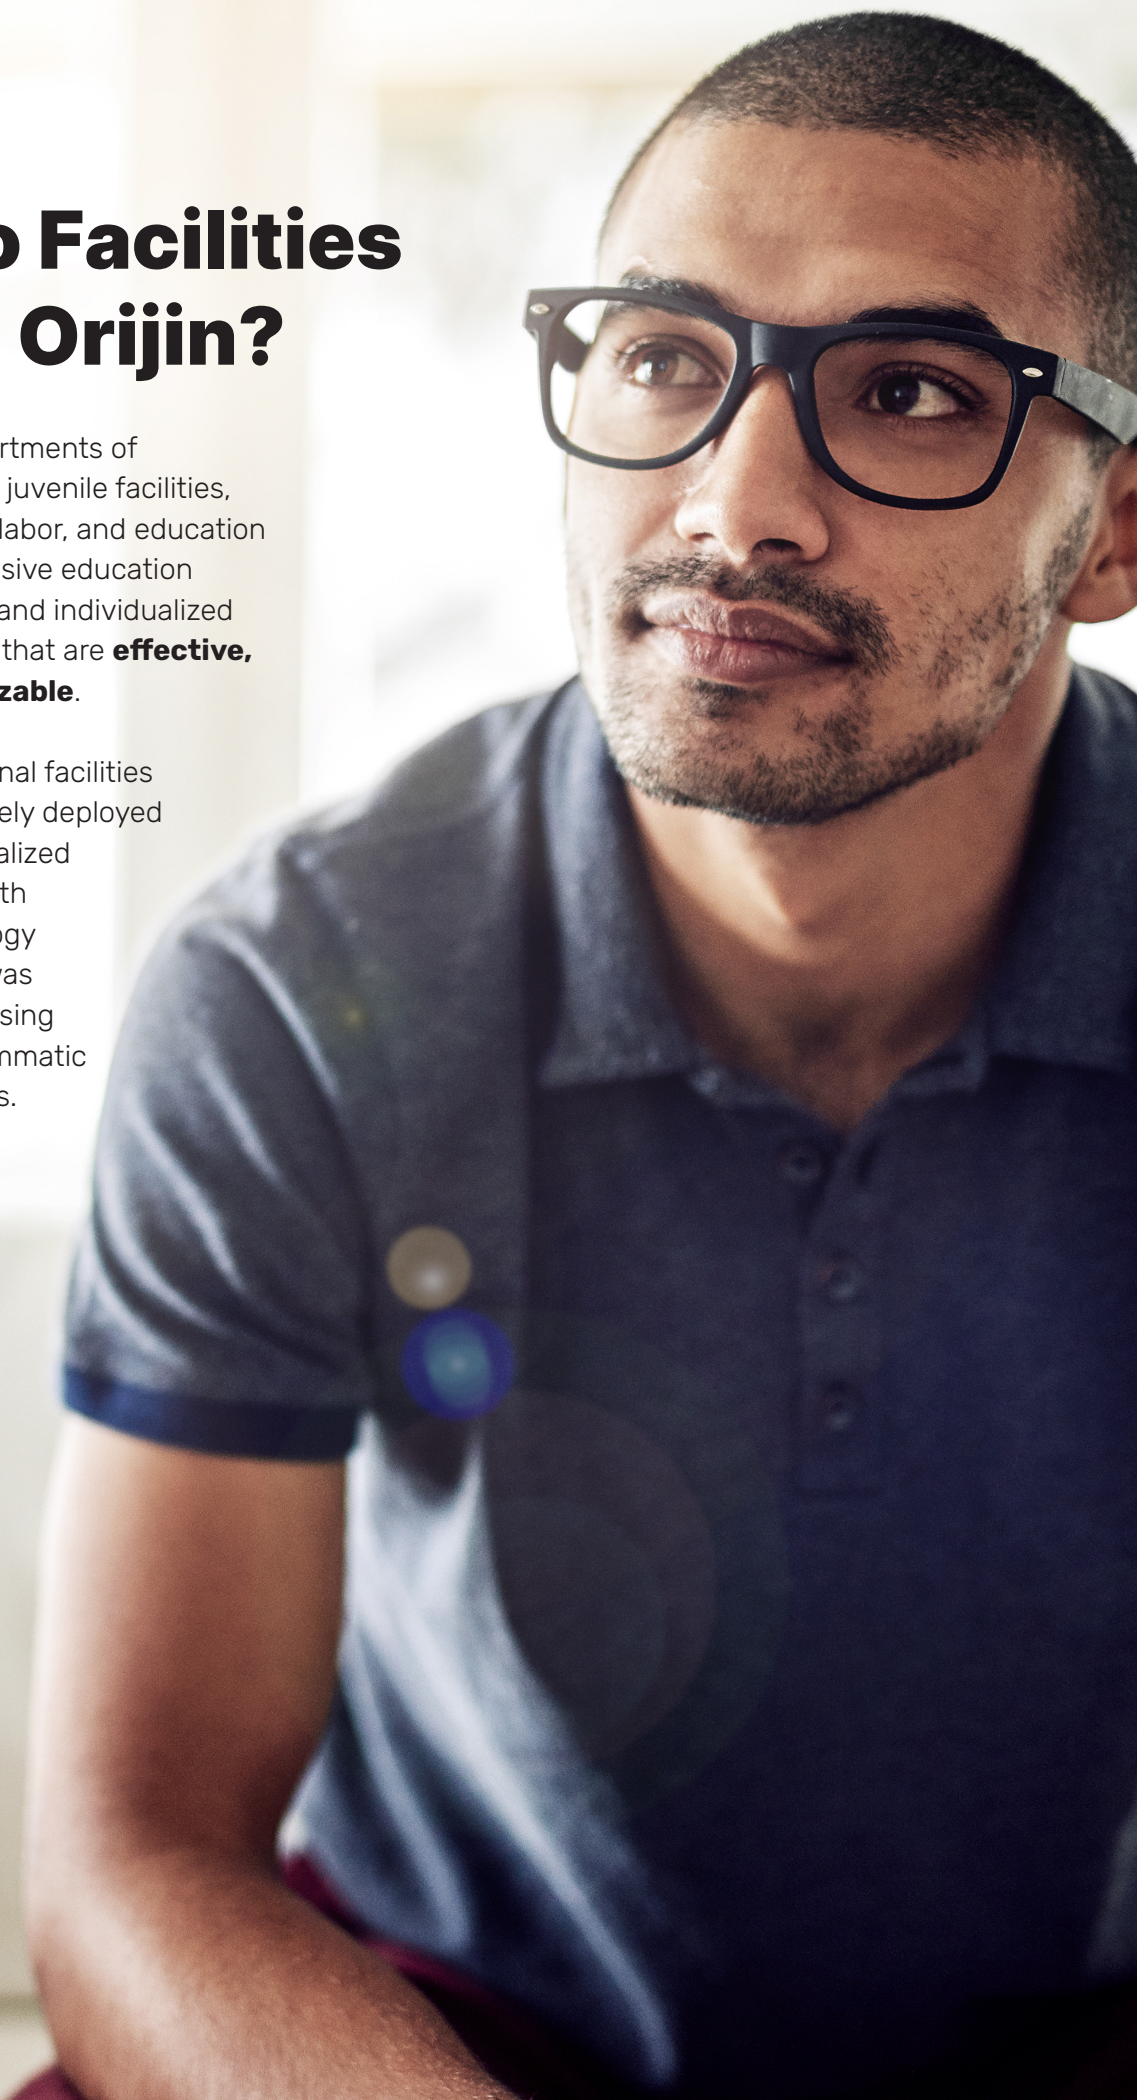

Why Do Facilities Turn to Orijin?

Orijin works with departments of corrections, local jails, juvenile facilities, parole and probation, labor, and education to provide comprehensive education solutions for facilities and individualized pathways for learners that are **effective, secure and customizable**.

Hundreds of correctional facilities have safely and securely deployed Orijin because they realized that the status quo with their existing technology and tablet providers was inadequate for addressing their strategic programmatic and educational needs.

With Orijin, Facilities Have:

- ✓ **Reduced recidivism**—Using Orijin, learners are up to 59% less likely to recidivate than their peers who do not have access to programming.
- ✓ **Reduced long waitlists**—Orijin increases access to high-demand educational and vocational programming.
- ✓ **Expanded access to all learners**—Our solutions reach all learners regardless of placement in facilities, including administrative segregation, recreational areas, classrooms, and individual housing units.
- ✓ **Alleviated staffing shortages**—Orijin devices amplify in-person instruction, so your team can deliver better results and connect with more learners without additional overhead.
- ✓ **Provided industry-proven, evidence-based, and corrections-approved content** —
Our standards-aligned education prepares individuals for sustainable employment post-release.
- ✓ **Complied with court orders, lawsuits and state board mandates**—
Orijin provides access to everyone in custody, including those with special needs and ADA requirements.
- ✓ **Improved facility culture**—Orijin increases self-worth and purpose; reduces depression, grievances and violence; and improves communication among staff and justice-impacted learners.

Orijin Works in Any Context

Orijin can replace your existing tablet provider OR work alongside them in your facility. Unlike transactional tablets designed to maximize user fees, Orijin offers a cost-effective option specifically designed and built to deliver a highly effective education.

The Original Education Technology Company in Corrections

When a jurisdiction is serious about reducing recidivism in their state, and they need innovative and research-proven ways to do so, they turn to Orijin.

Orijin Products

Orijin's Solutions

Secure tablets and laptops connected to our robust cloud-based learning and communications platform to solve some of the most consequential challenges correctional facilities face across the U.S.

Secure 10-Inch Tablets

Turnkey device with Orijin Safe Tech™ connected to our cloud-based learning platform:

- 10-inch screens designed to maximize the educational experience.
- WiFi and cellular enabled, depending on your facility's needs.
- Robust accessibility options to service learners with special needs.
- Remotely managed hardware fleet.

Orijin Safe Tech™

Turnkey hardware and software solution to deliver Orijin's platform and communication services that meets the highest security and custody standards:

- Physically and digitally secured to prevent unauthorized access or usage.
- Active monitoring and auditing tools to ensure safe and appropriate use.

Industry-Leading Managed Learning Platform

Cloud-based learning management system built to the highest industry standards uniquely adapted to work successfully in correctional facilities:

- Harness virtual (video) classrooms to provide synchronous and asynchronous instruction to learners throughout a facility and across facilities.
- Incorporate third-party, jurisdiction-created, and community-based content into the platform for widespread distribution and usage.
- Utilize an array of communication tools to streamline facility operations and save staff time.
- Securely accessed on Orijin Tablets as well as facility Chromebooks and PCs.

Evidence-Based, Corrections-Approved Content

Approved by the Pew Clearinghouse as evidence-based programming aligned to proven standards for learning:

- Adult basic education, high school equivalency.
- Industry-specific career training—information technology, trades, manufacturing, marketing, entrepreneurship.
- Employability readiness and enduring skills for professional success.
- Enrichment, rehabilitation, financial literacy, and self-improvement for personal development.

Robust, Actionable Data

Provides individualized tracking and reporting to facilities to maximize learner success:

- Reduce time served; document earned-time credit.
- Substantiate and validate parole petitions.
- Encourage learner education and course completion.

How Orijin Is Different

Orijin is the **only** company that will provide you the tools and data necessary to prepare justice-impacted individuals for successful reentry and sustainable employment.

Partnering with Orijin Changes Lives

- **No Cost Barriers:** Funded by jurisdictions, Orijin does not charge justice-impacted learners—or their friends and families—for our educational and communication services.
- **Robust Educational Technology:** High-quality course offerings bolstered by evidence-based programming aligned to proven learning standards.
- **Personalized Education:** Orijin provides pathways tailored to each individual, with thorough analytics.
- **ROIs That Matter:** Orijin delivers reduced recidivism, reduced costs, improved educational outcomes and sustainable career paths.

Whole Learner Framework™

Orijin's **Whole Learner Framework™** is a proprietary learner-centric model that is uniquely designed to motivate, engage, educate and equip each individual.

We help each learner see the future of who they can become, which may be very different from how they see themselves in their current circumstances.

After 10 years of research, design, and deployment of leading education technology, we understand the hopes, dreams and aspirations of the justice-impacted like no other provider.

Partner not vendor - we aligned our teams to ensure your success

From taking the time at the beginning to understand your goals to our strategic account team helping you throughout to meet your stated goals.

- Extensive education technology background—we are an education-first company.
- Highly rated implementation and customer support team.
- Exceptional track record since 2014, with extensive safeguards to prevent security breaches.
- Ability to efficiently solve your complicated connectivity challenges.
- Expertise in incorporating your workforce and community content into the Orijin Platform that is relevant to your justice-impacted learners.
- Best-in-class training and professional development for your facility staff.

Why Free is NOT Free

Other companies may claim to offer “free” tablets and education, but they are hiding major costs and pulling \$\$\$ from the local community:

- **Forcing Families into Debt:** Transaction-based tablets provided by telecom companies levy a tax on incarcerated individuals and their families upwards of \$2000 per year to use their services.
- **Misaligned Incentives:** Their tablets are designed and built to maximize user fees and transactions not educational outcomes.
- **Limited Access:** Some companies offer 1 “free” tablet for every 8 learners, but the remaining 7 tablets must be purchased, which conceals the true costs and undermines educational access.
- **Low Quality:** Open-source educational content does not adequately prepare learners for success, resulting in higher recidivism rates.
- **Tax Burden:** Taxpayers bear the high costs of recidivism and continued incarceration.

Create Second Chances through Work

Releasing justice-impacted individuals back into society without adequate education and career preparation makes recidivism far more likely.

To break the cycle of incarceration, Orijin provides justice-impacted learners with a **solid education** leading to **sustainable employment**.

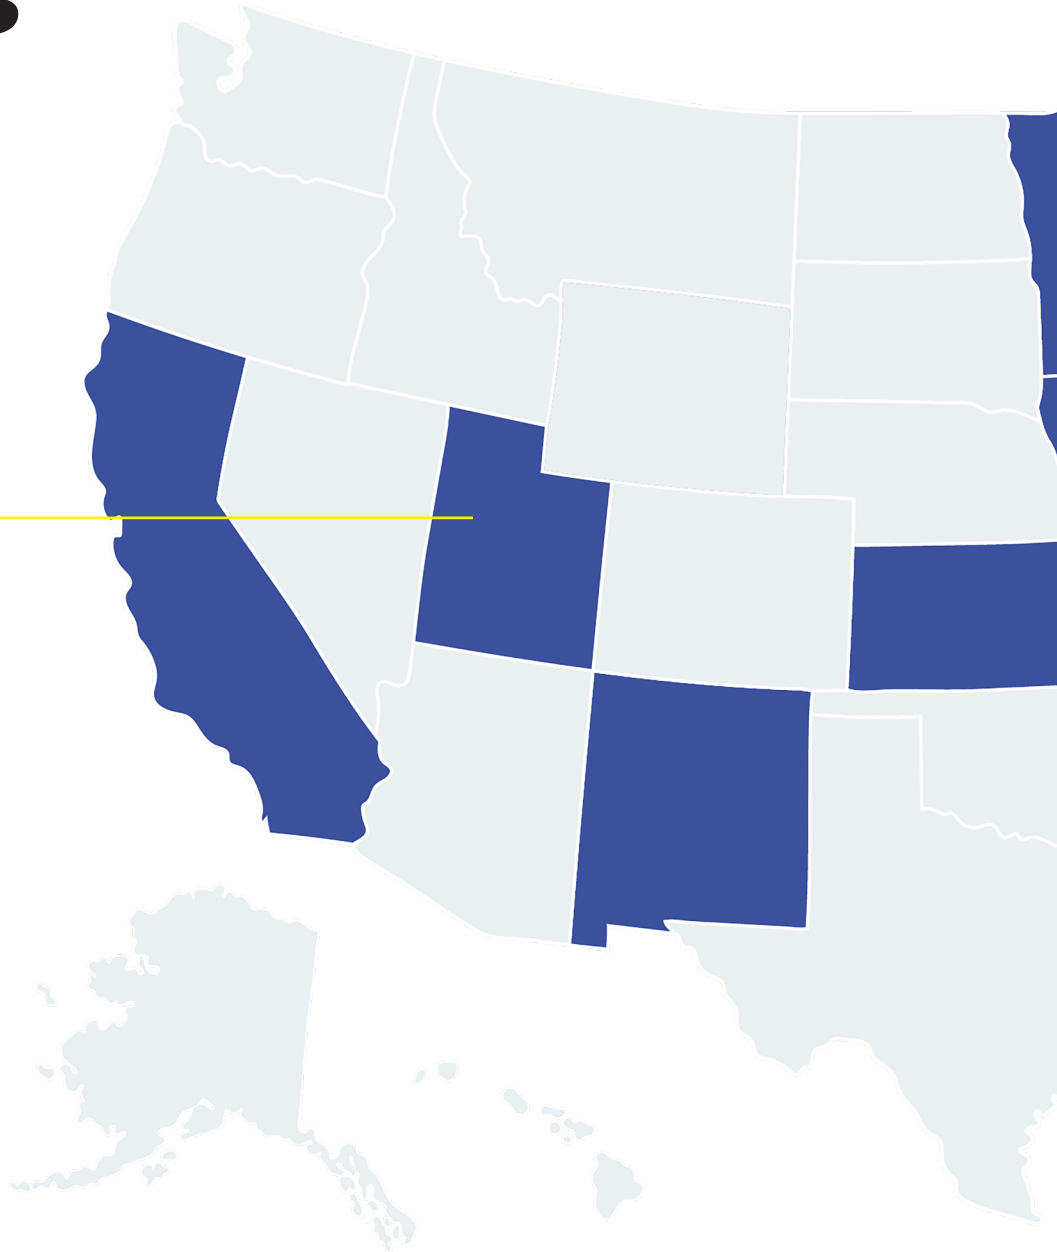

Orijin Delivers Success

Facility Success with Orijin

Drastically Reduced Recidivism in Utah

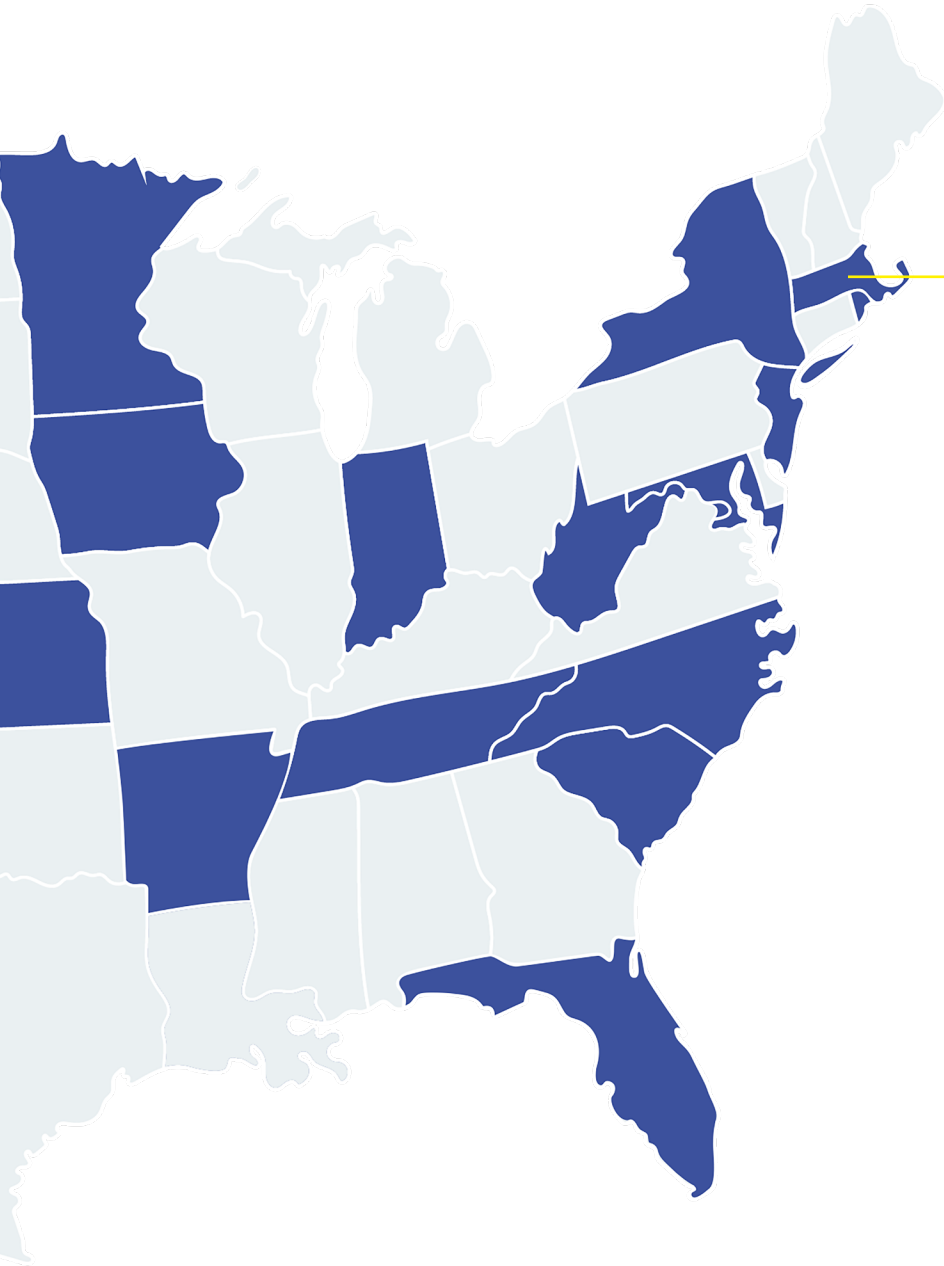

In 2018, the Utah DOC partnered with Orijin to launch in many of their facilities. By 2023:

- Approximately 3,000 Orijin devices have been deployed to individuals seeking further education.
- Utah's recidivism rate has decreased 17% points, saving the state's taxpayers tens of millions of dollars each year.

With Orijin, learners are up to **59% less likely to recidivate** than peers who do not have access to programming. Through our partnerships with facilities, they have demonstrated:

- Improved reading comprehension by four grade levels in nine months.
- 130% increase in GED pass rates.
- 30% increase in graduation rates (juvenile facilities).
- 90% pass rate for the Amazon Web Services Cloud Practitioner Certificate.
- 95% increase in access to education and technology.
- Earned trust from employers during the hiring process through Orijin and industry certifications.

A Landmark Partnership with Massachusetts

In 2022, the Massachusetts DOC partnered with Orijin to implement statewide Day 1 access for every justice-impacted learner, becoming the first state to offer education to all incarcerated individuals:

- Today, nearly 6,000 justice-impacted learners access evidence-based programming aligned to proven standards for learning
- Within the first month of deployment, education engagement increased by 39%; average monthly usage has increased about 65% year over year.

Justice-Impacted Orijin Learner

Saulina Eady

Time Incarcerated: 3 Years

Location: Multiple Facilities—Ending in Dublin Federal Correctional Institution

Orijin Courses: Information Technology, Enduring Skills, Financial Literacy and Legal Competency

Career Path: County Clerk/Information Technology

"I'm from Los Angeles and didn't have many opportunities early on. Unfortunately, I also struggled with mental health issues. And then I made some poor choices. As a result, I was separated from my family and spent years in women's institutions all across the country. While inside, I was given the chance to get an education through Orijin. Wow—their training was A+! I went through a ton of their tutorials, including social skills, financial skills, and interview preparation. Orijin brought me hope during a dark time, and that stability was priceless! After I was released and went home to Los Angeles, I applied to be a County Clerk three times and was denied each time. But I'd learned perseverance and been given hope through Orijin. I wrote a compelling Turnaround Letter. When Los Angeles County saw all my certificates and accomplishments, they finally hired me, and I now have a viable career! Thank you, Orijin—you gave me back my humanity!"

Learner Success with Orijin

Justice-Impacted Orijin Learner

Rodney Brown

Time Incarcerated: 28 Years

Location: Multiple Facilities—Ending in Washington DC Jail

Orijin Training: Completed 400+ hours of programming on Orijin—Focusing on Enduring Skills and Financial Literacy

Career Path: Medical Center Case Manager to Future Small Business Owner

"Growing up, I had almost no education and never got any useful training to get me ready for my future. I got involved in crime early on, and during my final 4 years in the Washington DC jail, I was given the life-changing opportunity to get an education and career training through the Orijin program. Orijin prepared me to face reentry with courage, and as soon as I was out, I started utilizing what I had learned. I now have a wonderful wife and two beautiful daughters and I'm working on starting my own cleaning business, as well as launching my own clothing brand. Thanks to Orijin, when I got out of jail, I was TRULY FREE!"
